

STANSBERRY ENGINEERING CO.

Stepping Stone XVI, School of Discovery located in Round Rock Texas

- Stepping Stone XVI is a new 14,000 square foot childcare and school facility on a 2.4 acre tract.
- Play yard areas included multiple playscapes to accommodate various age ranges. Special attention was given to these acres to ensure the play yards meet safety requirements.
- Project designed in accordance with TAS/ADA accessibility guidelines.
- Civil design services included site grading, drainage, utility improvements, and water quality facilities.
- Prepared and processed Water Pollution Abatement Plan through Texas Commission on Environmental Quality.
- Provided construction phase services.
